

Chala Geta

Senior Full Stack Software Developer

Addis Ababa, Ethiopia | GitHub: chalageta | LinkedIn: chala-geta

Professional Summary

I am a Senior Full Stack Software Developer with strong self-commitment and a continuous passion for learning new technologies. I have hands-on experience designing, developing, and delivering scalable web applications across both frontend and backend systems.

I have worked on several impactful projects, including the ECC Integrated Library System, MOR & ECC Alumni Management Systems, and Arifget.com E-Learning Platform. Currently, I am working on the Ethiopian Single Window (ESW) project as a Senior Software Developer, contributing to national-level digital transformation initiatives.

My technical expertise includes Next.js, React.js, Tailwind CSS, Node.js, Spring Boot, and backend systems using MySQL and Oracle databases. I am highly motivated, adaptable, and always eager to expand my skill set while building reliable, secure, and user-focused solutions.

I thrive in collaborative environments and enjoy turning complex requirements into efficient, maintainable software solutions.

Experience

Ethiopian Customs Commission

Senior Full Stack Developer | Dec 2023 - Present

I specialize in designing and developing scalable, secure, and high-performance web applications using modern technologies such as React, Next.js, TypeScript, Spring Boot, PHP, and MySQL. At the Commission, I have contributed to several national digital transformation projects, including the ECC-Integrated Library System (ECC-ILS), the Ministry of Revenue and Customs Commission Alumni System, and the Ethiopian Single Window (inECC). My role focuses on backend development, API integration, and frontend implementation to ensure seamless data flow, efficiency, and user experience.

Junior Software Developer | Dec 2024 - Present

Developed and maintained components of the Ethiopian Electronic Single Window (EESW) system, improving efficiency in customs processing. Participated in testing, debugging, and deploying software modules, ensuring high-quality and reliable system performance. Contributed to digital transformation initiatives to modernize customs operations and improve user experience.

DAN Energy R&D

Internship Practitioner | Aug 2022 - Aug 2023

Full-time internship focused on software development and applied learning.

Education

Ambo University

Bachelor of Technology, Information Systems | Oct 2019 – Jul 2022

Grade: 3.86

Technical Skills

Languages & Frameworks: Next.js, React.js, Tailwind CSS, Node.js, Spring Boot, PHP, TypeScript

Databases: MySQL, Oracle

Other Skills: Front-End Development, Full-Stack Development, API Integration

Certifications

- **IEICS ESW Certificate of Recognition**
Certification for Ethiopian Electronic Single Window development and integration.
- **ILS Certificate of Appreciation**
Professional certification highlighting technical and functional expertise.
- **Arifget Elearning Certification**
Certificate of recognition for the Arifget Elearning project.
